10 Plaintiff,

No. 20-06754 WHA

11 v.

12 SONOS, INC.,

13 Defendant.

15 **ORDER DENYING REQUEST TO**
16 **MODIFY CASE SCHEDULE**

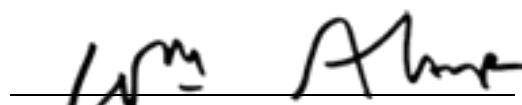

17 Today, the Friday before the Monday deadline for reply expert reports, the parties have
18 requested an extension (Dkt. No. 449). Specifically, they request to extend the deadlines for
19 the remaining expert reports, expert discovery, and dispositive motions. The parties state that
20 this is “necessary and desirable” but provide no justification in their stipulation or attached
declaration beyond that it is “necessary to fully address the key issues in the case” (Moulton
Decl. 1).

21 The request is **DENIED**. Expert report and discovery deadlines have already been
22 extended several times in this action, most recently in December. Moreover, trial is scheduled
23 to begin in early May. Given the impending trial date, no further extensions will be granted
24 absent an exceedingly compelling justification.

25 **IT IS SO ORDERED.**

26 Dated: January 20, 2023.
